The seller guarantees that the puppy is in good health and free of any known genetic defects, communicable diseases, or illnesses other than the following known health issues:

The buyer agrees to accept the puppy in its current condition and any known issues at the time of purchase are exempt from the provisions of the health warranty. It is to be clearly understood, that the Seller does NOT, under any circumstances, accept responsibility for any veterinarian and/or health care expense.

Your puppy must be seen by a veterinarian for a wellness check within 5 days of purchase. This examination must include a written assessment of overall fitness and wellness signed by the veterinarian. Failure to receive a wellness check within 5 days will void all guarantees under this agreement, express or implied. The results of the wellness check must be provided for any future requests for a refund or exchange of the puppy.

### Health Warranty

The puppy has a 24-month health warranty, valid until \_\_\_\_/\_\_\_\_/\_\_\_\_\_, against hip dysplasia, genetic defects (PRA-1, PRA-2, ICH, MD, NCL, and prcd-PRA) which cause seizures, or sudden death. Because 60% of all hip dysplasia is related to poor nutrition and

environmental factors we require that your puppy continue with the Life's Abundance Nutritional Systems food for the first 24 months of his/her life to qualify for the 2 year health guarantee. The Buyer also agrees to postpone strenuous, forced exercise until after their puppy is over one (1) year of age to minimize joint damage as puppies develop. Puppies not fed on this specific diet or found to force strenuous activity that could cause joint damage will void the 2 year health guarantee. This warranty is only valid for the original buyer and is non-transferable.

Any suspected debilitating congenital defect or hip dysplasia must be confirmed by a licensed veterinarian (including necropsy if the dog dies).

- Buyer must supply any requested veterinary records related to the dog's condition to the seller within seven days of diagnosis.
- Seller has the right to require a second opinion from a veterinarian and/or veterinary specialist of the Seller's choice at the Seller's expense.
- If necropsy is performed and results in undetermined or inconclusive diagnosis, warranty is void

If any of the above health issues should arise before the warranty has expired, the seller will provide another puppy from the same litter or, if unavailable, from a future litter of the same value.

The seller is not responsible for puppy death or illness due to dehydration, malnutrition, unclean or unsafe living conditions, or anything that is preventable or treatable by the purchaser.

Although the puppy has been vaccinated against Parvo, Distemper, Adenovirus, and Para Influenza, no guarantee can be given against these diseases due to their unpredictable nature.

The Buyer agrees to contact the Seller immediately if the Buyer determines they are unable to keep their puppy for any reason. The Buyer and Seller will jointly determine how the dog will be re-homed.

The Buyer agrees to never place their puppy with a rescue group, in a shelter, pound, or similar facility or research laboratory.

The Buyer allows the Seller to use any pictures of the dog that the Buyer posts on social media for the purposes of reposting and sharing on Facebook, Instagram, their website, Twitter, YouTube, etc. or in any manner they choose.

The purchaser verifies that they have received a copy of the  puppy's vaccination records,  microchip information,  parents' genetic and coat testing results (upon request), and  AKC registration papers (only applicable for pure breed puppies).

By signing this contract, I agree to all of the previous terms of the contract and warranty
